Your Korean-Style Resume in 2042

- Please make your resume after 20 years as a HTML document. The resume should follow the (old) Korean style, which requires a lot of personal information. You can download the form from the blackboard. For this practice, you can fake and don't have to provide your real personal information.
- Imagine yourself in 2042, and fill the contents. You don't have to be serious, but I hope the resume will reflect your dream and future career.
- You are required to complete the practice within the class.
- Once you are done, please ask the lecturer or TA to check your practice, and submit Assignments and Test in blackboard.
